Take Six Mini-Basketball is a new version of Mini-Basketball designed especially for Primary Schools

- *Is an uncomplicated version of mini-basketball promoting learning through play.*
- *Provides the knowledge, skills & understanding of an invasion game.*
- *Supports an educational programme to develop Agility, Balance, Coordination and Speed.*
- *Is ideally suited to primary schools where the playing space may be more limited.*
- *Is ideal for intra and inter-school games which should always be a positive experience for all.*

Mini-Basketball England will provide School Sports Partnerships, individual schools and Mini-Basketball providers with all the information that is required to introduce and develop Take Six Mini-Basketball. Our ambition is for all School Sports Partnerships to use Take Six Mini-Basketball as their introduction to Mini-Basketball particularly where Mini-Basketball has not been played before.

In order to establish a strong supportive network MBE encourages all School Sports Partnerships and other potential providers to register with Mini-Basketball England.

The registration process will be quite straightforward and in return for a nominal fee the School Sports Partnerships and other providers will receive a comprehensive package to include:

- *Membership of the Take Six Mini-Basketball National programme.*
- *A copy of the Take Six CD allowing the Partnership to access materials including a Course Leader's Handbook, Teacher's Guide, posters, stickers & certificates for print.*
